Fire Swoops Down Upon Peaceful Sleepers

Early on Monday morning last the people of Slav town, a little settlement at the west end of Coleman, was awakened by the shout of "fire." The alarm was promptly responded to by a large number of willing hands who worked with might and main to stop the ravages of fire which broke loose in Albert Manastak's dwelling house about 1:30 o'clock.

The Coleman Green turned out in fairly good numbers but as there was no water connection with the main, the fire fighters had to fetch water in pails from the river, and as this process was somewhat slow, the flames soon increased in volume and seized upon two other buildings, one of which was owned by John Gengo of Blairmore and the other belonged to John Kelik. The flames then assumed a spectacular appearance; the whole place was illuminated for over an hour. Other buildings were threatened but for the heroic work of the fire brigade, a much greater conflagration would have taken place. Two of the buildings were occupied by families when the fire broke out, and it was because of remarkable alertness on the part of the occupants that none of them succumbed to the flames.

Manastak had a very close call with death and escaped only after the fire had enveloped him and had singed parts of his body. It was one of the most narrow escapes from cremation that had ever been known in the history of Coleman.

Nearly all of the furniture in the occupied houses was reduced to ashes as were also the three buildings each of which was fully covered by insurance.

The total loss is estimated at \$5,000.

Students at McGill are Coming Here

Montreal, May 9.—To-day thirty-two students of McGill university, accompanied by Dr. J. B. Porter, professor of mining and engineering, and the assistant professor in geology and mining, have left Montreal for Cobalt and the West, to visit mines, mill and waterpowers, and thus supplement their course in science.

The party will proceed from Montreal to North Bay, where the cars and party will, by permission of the T. and N. O. commission connected with the train to Cobalt, where the party will stop until May 10, spend the time in studying mining, both surface and underground.

From there they will proceed to Lethbridge, Bellevue, Frank, Blairmore, Coleman, Mayne, Riondel, Nelson, Rosland, Trail, Phoenix, and Greenwood, and spend some time at each place, making a long stop at Frank where they will examine Turtle mountain and will also visit the mine.

Wind Moves House Four Feet

What might have proved a serious accident occurred to Edward Christie, on Tuesday, at Bellevue. Mr. Christie was standing on a ladder, working on the side of a house he was building, when a whirlwind from the opposite direction lifted the house and carried it towards him. He was thrown back against a barbed wire fence but escaped injuries. The building moved nearly four feet.

ANOTHER LINK TO THE TOWNS OF THE PASS

York Creek Is New Town Between Blairmore and Coleman

People From Latter Place Are Buying Property in the New Townsite

Convenient Place for Miners To Live and Some Have Already Decided to Move There

New towns are springing up around us with great rapidity, and one is almost led to say that "towns, like mushrooms, grow up in the night." The latest town to be added to the already long chain of well-established and active communities throughout The Pass, is the one known as York Creek, named after the famous creek or river from which the town of Blairmore gets its water supply.

The new townsite of York

Creek was purchased last month

from Paul Oher who homesteaded there about five years ago. The purchasers are The Majestic Realty Co., of Calgary.

The new town is about two miles south-east of Coleman and near the York creek entrance to the International Coal & Coke Co.'s mines. J. M. Ponton, of the firm of Harrison & Ponton, is now on the grounds and has men engaged in surveying the property and getting it ready to put on the market in the course of the next few days. Mr. Ponton told a representative of this journal that quite a number of people had already agreed to purchase lots, the most of the prospective buyers being coal miners who would move from Coleman and take up their residence at York Creek.

Students at McGill are Coming Here

Montreal, May 9.—To-day thirty-two students of McGill university, accompanied by Dr. J. B. Porter, professor of mining and engineering, and the assistant professor in geology and mining, have left Montreal for Cobalt and the West, to visit mines, mill and waterpowers, and thus supplement their course in science.

The party will proceed from Montreal to North Bay, where the cars and party will, by permission of the T. and N. O. commission connected with the train to Cobalt, where the party will stop until May 10, spend the time in studying mining, both surface and underground.

From there they will proceed to Lethbridge, Bellevue, Frank, Blairmore, Coleman, Mayne, Riondel, Nelson, Rosland, Trail, Phoenix, and Greenwood, and spend some time at each place, making a long stop at Frank where they will examine Turtle mountain and will also visit the mine.

Wind Moves House Four Feet

What might have proved a serious accident occurred to Edward Christie, on Tuesday, at Bellevue. Mr. Christie was standing on a ladder, working on the side of a house he was building, when a whirlwind from the opposite direction lifted the house and carried it towards him. He was thrown back against a barbed wire fence but escaped injuries. The building moved nearly four feet.

A report comes from Clarendon that the calling of Malcolm McKenzie to cabinet honors, has given his friends in that part of his constituency great satisfaction.

Hon. James Pitt Mabee, K. C., who has been chief of the Board of Railway Commissioners for Canada since March, 1908, died at Toronto on Monday afternoon last.

Rev. T. M. Murray, wife and children, left Coleman on Monday morning, on a visit to Scotland. Rev. Murray will conduct services in the Institutional church during Mr. Murray's absence.

Methodists Hold Annual Meeting

The Quarterly Official Board of Knox Methodist church met at the home of Mr. C. Patmore, Eleventh avenue, on Tuesday evening last.

The main object of the meeting was to receive reports regarding the work done by the different organizations of the church during the year just closed. All the reports were encouraging and showed that in spite of the long coal miners' strike and the several other difficulties with which the church has had to contend, that the sum of \$900 had been raised locally.

The pastor, Rev. W. T. Young, was complimented for the good work carried on by him amongst the foreigners as well as amongst the English speaking people, and the hope that he would remain at Knox Methodist church for some time to come, was generally expressed at this gathering.

This being the annual meeting, it was necessary to elect the Quarterly Official Board for the year in place of the retiring members, and the following were elected: A. I. Blais, C. Patmore, W. J. Bartlett and George Patterson. The latter was elected recording steward for the year. J. D. S. Barrett was elected delegate to attend the annual district meeting to be held at Macleod on the 22nd of May.

Feathers His Nest

Then Goes to Macleod

An interesting case engaged the attention of the court at Coleman on Monday morning when E. Buzaro, of Little Italy, was charged with having stolen nine chickens from Joseph Lloyd, of Slav Town. At first the accused declared that the chickens were purchased by him from P. Premo, of Blairmore, but when the Blairmore Italian was spoken to over the phone regarding the matter he stoutly defied Buzaro to prove his statement. The latter confessed and offered to pay the sum of \$10 for chickens but the court informed him that he would be given a free ride to Macleod and board and lodging at the jail there for three months. He went east on the noon train. Justices Disney and Morrison presided.

Here and There

Monday last was the second anniversary of the accession of His Majesty King George V.

Mrs. S. G. Dodd committed suicide at Calgary, on Saturday night last, by drinking carbolic acid.

Davis Davis, who had been on a six months' trip to Wales and other parts of Great Britain, has returned to Coleman accompanied by Mrs. Davis.

Two boys who had been busy with giving false fire alarms, pilfering, etc. at Fernie, B. C., have been given five years apiece in the reformatory.

A report comes from Clarendon that the calling of Malcolm McKenzie to cabinet honors, has given his friends in that part of his constituency great satisfaction.

Hon. James Pitt Mabee, K. C., who has been chief of the Board of Railway Commissioners for Canada since March, 1908, died at Toronto on Monday afternoon last.

Rev. T. M. Murray, wife and children, left Coleman on Monday morning, on a visit to Scotland. Rev. Murray will conduct services in the Institutional church during Mr. Murray's absence.

PILE CURED

Writing from Poplar, B.C., Mrs. C. Hanan, proprietress of the Commercial Hotel, says: "I suffered for years with piles. The pain would be so bad at times that I could hardly walk and ordinary remedies seemed utterly unable to give me any ease. Finally I decided to undergo an operation and went to Dr. H. H. H. Thompson in Spokane. There they performed an operation. For a time I was certainly better, but within twelve months the piles became as painful as ever. I then consulted Dr. Thompson again and he suggested I undergo another 'pile cure,' and indeed everything I could think would be likely to do any good, but still I continued to suffer. And the piles were burning, stinging and the dull, aching, worn-out feeling that the disease causes continued as bad as ever."

"One day I read about Zam-Buk and thought I would try it. The first time I took a good dose it was better than anything else I had tried, so I went on with the treatment. In a short time I began to feel altogether different and better. Well, I went on with Zam-Buk and by the time I had used six boxes I was delighted to find myself entirely cured. That was three years ago, and there has been no return of the trouble."

Zam-Buk is a good cure for piles, oozes, ulcers, abscesses, cracked heads, varicoses, sores, burns, scalds, bruises, inflamed patches, and all skin injuries and diseases. Drug-gists and stores everywhere, 50c box, or Zam-Buk Co., Toronto, for price.

Amundsen's Name.

Although Amundsen has been a famous name since he discovered the Northwest Passage, the name is still pronounced wrong as often as right. The correct pronunciation is with a steady stress on the first syllable, which is not the case in "ah-moon-dsen." The "oo" is not quite so close and positive as in moon, and the "e" is somewhat muted. The most common mistake is clattering up with "consonants" take each about the same time as the long "ah," so that the rhythm is much different and better. Well, I went on and emphatically spoken. It is a resonant, spirited name, worthy of a modern Viking—Springfield Republican.

The change of dietary that comes with a slender physique has been a frequent weak stomach or setting off inflammation, resulting in dysentery and cholera morbus. The abnormal condition will continue if not attended to, and will eventually drain on the system. The best available medicine is Dr. J. D. Kellogg's Dysentery Control. It clears the stomach, stimulates the intestines, counteracts the inflammation, and restores the organs to health and action.

One Pill for 99 Persons.

Over 90 persons partook at Gorleston-on-the-sea pie-into-the-making of which there entered two stones of flour, six sausages, six ox and sheep kidneys, a pound of bacon, a pound of stone of green vegetables, half a stone of onions and two stones of turnips and carrots.

The total weight of the pie was over 200 pounds and it took two days to cook—London Evening Standard.

Slight Detour.

He—if an old millionaire on the grave wanted to marry you, would you throw me over?

She—No, I would not. Still you might have to wait a year or two. Sloper's Half-Holiday.

Germany possesses 1,500 moving picture shows, of which there are 350 in Berlin.

Fish is sometimes colored with an organic dye to give it the appearance of having been broiled.

ALL KIDNEY DISEASES

R. & J. THE FIRM

W. N. U. No. 893.

Suicide by Starvation
In a Lopez, the river from Lake, Vaish, Felicitas, a widow, starved to death, as did the aged and infirm in the time of her father.

All the life Felicitas had on the banks of the Pecos River, on the border of the Pecos River, from the monster falls at Albany to Box canyon, she knew every fact and every whom on the great river. Before the man ever saw it she caught fish in the seething rapids and paddled her canoe on its broad surface.

Felicitas had been ill for years, but always hoped that some time she would recover and do her share of the labor of the tribe.

With her knowledge came that she was of no use, any longer and had become a drag upon her people. Felicitas pulled her ragged blanket around her spent body and lay alone in the dark. Not a ounce of food would she touch and she took only enough water to be spared the delirium of thirst.

For two weeks she refused nourishment. Her skin wrinkled like parchment and she died little more than a frankenstein.

The sacred rites of the tribe were administered and her body lies on the bank of the river that had always been her world.

Love's Labor Lost.

Rev. John Brown, father of the well beloved Dr. Brown, who wrote the book of "The Prairie Pioneer," was in the habit, on festive occasions, of proposing a certain young lady as his toast.

Noticing that he had abruptly abandoned his proposal, the curious person asked him the reason.

"Because," he said, sadly, "I have toasted her for sixteen years without her ever returning my toast."

Well, I went on with Zam-Buk and by the time I had used six boxes I was delighted to find myself entirely cured. That was three years ago, and there has been no return of the trouble."

Zam-Buk is a good cure for piles, oozes, ulcers, abscesses, cracked heads, varicoses, sores, burns, scalds, bruises, inflamed patches, and all skin injuries and diseases. Drug-gists and stores everywhere, 50c box, or Zam-Buk Co., Toronto, for price.

Deafness Cannot Be Cured

By old application of the best known drugs to the deaf, the disease is cured, and that is by constitutional treatment, the normal growth of the body, the use of the perfect hearing, and when it is entirely closed, deafness is cured. The tube restores to its normal condition and ten are caused by Calvert, which is nothing but a small tube.

We will give One Hundred Dollars for any case of deafness, and we will give a free trial.

Dr. J. C. D. DODD'S KIDNEY PILLS

Dr. J. C. D. DODD'S KIDNEY PILLS</

Taxing Hawkers and Peddlers.

The Business Men's Association of Calgary has been unsuccessful in its application to the City Council to have the license for transient traders raised to \$500; the Aldermen expressing the belief that the figure was a prohibitive one.

In their anxiety to curb the evil the merchants may have placed the figure somewhat higher than was actually required, but it is quite apparent that stringent measures against this class of fly-by-nights are necessary.

Under present arrangements the hawker or peddler may come into the town pay the small fee required, and hawk his wares unmolested. He may be selling rugs, dry goods, tea coffee or a hundred and one other things, all of which are handled by merchants who are large taxpayers and permanent residents, spending their money in the city and assisting its growth in every manner. The transient trader clears up a bunch of money in a few days and departs to spend it elsewhere.

Certain eastern municipalities have adopted a scheme which appears to meet the requirements of the merchants and others interested. Every transient trader, hawker or peddler is compelled to take out a license, the fees in different municipalities ranging from \$150 to \$300. His license secured he is allowed to go about his business unmolested. If at the end of year he is still in business the amount paid for a license is applied on his taxes, and thus his license has cost him nothing. This scheme has the effect of encouraging the man who opens up a business with the intention of remaining permanently, and at the same time it makes it impossible for the small fry who remain but a few days in each town to profit.

This system is in use in at least one western city, and is said to be operating satisfactorily.—Trade Gazette.

Is there anything in all this world that is of more importance to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood. When the digestion fails, the whole body suffers. Chamberlain's Tablets are a rational and reliable cure for indigestion. They increase the flow of bile, purify the blood, strengthen the stomach, and tone up the whole digestive apparatus to a natural and healthy action. For sale by all dealers.

Dr. Wilfrid Grenfell, of Labrador fame, has been appointed by the International Peace Conference on the commission which will make arrangements to celebrate anniversary of the hundred year of peace between Great Britain and the United States.

Gerald M. Ponton, of Harrison 4, Portion, of Calgary, was in town this week renewing old acquaintances.

Teachers Receive General Increase

Edmonton, May 9.—At a special meeting of the school board, to consider a revision of the salary schedule of the teachers of both the public and high schools of the city, the result was that a raise has been granted all the way round. Besides the teachers, principals and superintendents, both male and female, the building commissioner, secretary treasurer and medical inspector were given increases, and it was decided to employ a graduate nurse to assist the health officer in his work. All increases and the new schedule were made effective from May 1.

Easy Victory**For Blairmore**

The Bellevue and Blairmore baseball teams played an interesting game on the Blairmore grounds on Wednesday afternoon before two hundred spectators. The game was fast from start to finish and the visitors threatened to make it unpleasant for the home team at several periods of the game, but the result proves that their efforts were unavailing. The Blairmore players showed that they had not forgotten the main points of the game and could play high-class baseball, winning by a score of 8-2.

It will be remembered that Blairmore carried off the baseball laurels last season against all the teams between Fernie and Pincher and a repetition of last year's work seems certain.

Committed for Trial

Just as we go to press the preliminary hearing of the alleged performers, Lee Tuck and Lung Tan, before Justice Pinkney, at the Blairmore police barracks, comes to an end and the two Chinese are committed to stand trial at the sittings of the supreme court which convene at Macleod on Tuesday. P. J. Nolan appeared for Chinese and Inspector Belcher acted as attorney for the Crown.

It is well known in the colonies whether ladies by slight exercise in their Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

Presbyterian Services

The morning service on Sunday next will be devoted to "The Mothers" of our country. There will be appropriate addresses, recitations, choruses and hymns.

All who wish to pay respectful tribute to their "mothers" living or gone, are cordially invited to this service. Everyone is asked to wear a white carnation.

J. H. Howell, a popular dramatist of Greensburg, Ky., says: "We use Chamberlain's Cough Remedy in our own household and know it is excellent." For sale by all dealers.

Oldest Colony Will Send Governor On Mission to Canada

Ottawa, May 9.—Premier Borden received word yesterday that Sir Ralph Williams C.M.G., K.C.M.G., governor of Newfoundland, would this month pay an official visit to Canada.

The announcement of this news has started a rumor that negotiations for annexation between the two countries may be opened shortly. The story has it that while the governor's visit is mainly to pay his respects to the Duke of Connaught, it is hoped that it will lead to a more friendly understanding between the two countries, to be followed by closer trade relations and annexation. The governor will arrive at North Sydney on May 15, and will proceed to Toronto, where he will spend May 17 and 18. He will then return to Ottawa, where he will spend some time visiting His Royal Highness and members of the cabinet. As far as is known at Ottawa, he is not the bearer of any proposals from the Newfoundland government, but his visit at the present time is regarded as highly significant, this being the first official visit by a Newfoundland governor to Canada for years.

A RARE OPPORTUNITY FOR LIVE INVESTORS**Lake City**

Is the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway, and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Crox's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada, where the majestic Rockies lower in serene magnificence over great chasms and numerous fjords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntsman who desires to outrival the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold, quartz, coal, iron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now its promise is being realized. Plans for hotels, etc. are being arranged, as well as boat house, and the most modern pleasure yachts will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

Rev. W. H. Irwin will preach on "The Value of an Individual" on Sunday evening next at 7:30.

No mine closed down temporarily on Thursday. About eighty men are out of work as a result.

"Bob" McGowan took charge of the business of The Crows' Nest Pass Hardware Co. here on Thursday.

Mr. and Mrs. Goodwin arrived in the camp on Friday night from Dunby, Yorkshire, England. They will make their home here.

James Findlay, general manager of the Maple Leaf Coal Co., who had been visiting friends at Cranbrook, B. C., during the past week, returned to Maple Leaf on Tuesday.

The Bellevue football team proved their superiority over Hosmer on Saturday on the local grounds by defeating the visiting team by two goals to one. Bellevue only played ten men.

A christening took place in the church on Friday afternoon when the two weeks-old son of Mr. and Mrs. Waits Goodwin was created Stanley Hollington Goodwin, Rev. W. H. Irwin officiated.

At the sports at Fernie on Wednesday last, the Bellevue boys carried off the honors as usual. In the band race all the prizes came to Bellevue. The prize for the high jump came to Bellevue. Our football boys carried off the money and Bellevue figured prominently in other events.

The boys from Yorkshire were much elated over trimming the Canadians at baseball by a large score on Tuesday night. The game was played for a keg of water (?). The success of the Eng-

Breezy Budget From Prosperous Passburg

Progressive Coal Mining Camp

Wants Incorporation and Has Already Taken Action in the Matter—Larger Output of Coal.

A meeting of the rate payers, for the purpose of discussing the advisability of forming Passburg into an incorporated village, was held in the school house on Monday evening last, at which there was a fair attendance. J. Kerr acted as chairman and A. P. Hughes was appointed secretary of the meeting.

It was the unanimous opinion of those present that Passburg be incorporated without any unnecessary delay, and a committee was appointed to take the census of the people living on the townsite, ascertain how many houses and shacks were on the coal company's portion of the surveyed townsite and to report as to how many people were living therein.

The Leitch Collieries unloaded their new gasoline locomotive on Monday. This will be a great convenience at the mines and will mean a greatly increased daily output. We expect to see the coal come in now in even larger quantities than formerly, and things will be as they never did before around this busy burg.

J. Redfern is busy these days grading a road through his property and making that part of the town more attractive.

Dame rumor says that we are to have an up-to-date tennis court this summer. We hope that this will materialize and that Passburg will be given a chance to compete for the honors of The Pass.

Saving Electricity

Tungsten lamps are coming to the front because they save electricity; in appearance, their only difference from the ordinary carbon filament incandescent lamp is that the filament is constructed of tungsten instead of carbon. But in actual use, it has been proved that they use only about one-third as much current as a carbon lamp to produce a light of the same illuminating power. True, their first cost is greater (approximately three times as much), but this is counterbalanced by the saving in current effected. They have one weak point, however. That is the ease with which the delicate tungsten filament is broken. On this account great care has to be exercised in installing them, and it is for this reason, too, that they cannot be economically used as rotatable lamps. Yet, when carefully handled, they have a long lease of life. In England, where they are used much more extensively than here, it is quite common for them to last 3,000 hours, and one instance is on record where a tungsten lamp burned continuously for over 15,000 hours.

Even when allowance is made for more frequent breakage, the tungsten lamp shows a saving over the carbon of about fifty per cent. That is an economy not to be despised and points to the much greater use for stationary lighting purposes.

Light boys was probably due to them mistaking the contents of the keg.

Pincher Creek Gun club came to Bellevue on Wednesday morning of this week and shot with the local club. Our boys won by a score of 127-112.

A grand ball will be given in the Socialist hall on Friday night of next week. A good programme has been arranged and Prof. Crawford's orchestra will attend.

Happenings in and Around Frank

A large number of tourists are sojourning at the Sanatorium.

The liquor license commissioners were at the Sanatorium on Friday.

Alfred Pellegrin of Pincher Creek, was at the Rocky Mountain Sanatorium on Saturday and Sunday.

An article regarding Frank's future is crowded out of this week's issue but will appear in our next.

Mrs. E. T. Fitzsimmons, of Burns, and Mrs. H. H. Fitzsimmons, of Lethbridge, were at the Sanatorium on Sunday.

Mr. and Mrs. W. M. Campbell and two sons were up from Macleod on Sunday and were registered at the Rocky Mountain Sanatorium.

Mr. and Mrs. Steve Manahan, of New Westminster, B. C., arrived at the Sanatorium on Monday and will spend the greater part of the week in town, after which they will return to the Pacific coast.

W. J. McGowan, Jake Whiller and Harvey Murphy, returned from Edmonton last week end, whether they had been to interview Premier Sifton regarding the moving of buildings from the danger zone at Frank to a place of safety.

The good work of educating the foreigners which has been carried on by Rev. W. T. Young during the past winter and spring is bearing fruit in an uncertain way. James Donaberry, who knew no English several months ago when Mr. Young first took him into his class, sat a week or so ago for engineers' papers and wrote all his questions in English. On Monday the Italian received word from Lethbridge that he had passed the examination.

The many friends of F. S. McCall will be glad to learn that he has passed his examination for B. A. at the Alberta university, Edmonton. The degree of Bachelor of Arts will be conferred on Mr. McCall on Tuesday next. A recent issue of the Gateway, a magazine published by the Alberta university, contains the following: F. S. McCall from Ontario where he won success as a teacher. The Methodist church brought him west for its ministry. He was the first to register when the University of Alberta opened. This primary place was maintained at the first President of the students' Council and of the Y. M. C. A. He graduated in Honors English and seems to have ambitions for still higher work.

The May Rod and Gun

Every sportsman interested in the welfare of Canada's fish and game resources should read the May number of Rod and Gun Canada published by W. J. Taylor, Limited, Woodstock, Ont., which contains the first chapter of the Final Report of Mr. Keny Evans of the Ontario Game and Fisheries Commission. Mr. Evans has spent two years in the preparation of this report and the information contained therein and the recommendations which Mr. Evans makes as to a broader policy of administration should be read by every sportsman. "An Ideal Canadian Holiday" will appeal to those who already have visions of a summer outing. Trap shooters will find their interests particularly well looked after in this month's issue which contains in addition to the usual department news and scores a specially illustrated article by "Cantick" on the Easter Inter-Club Shoots between Montreal and St. Hubert clubs.
